Professional Summary

Mid-level Full-stack Engineer with 5+ years of experience building scalable web applications. Proficient in Python, JavaScript, React, and AWS with a track record of delivering user-centric solutions. Led cross-functional teams to improve application performance by 30% and reduce deployment times by 25% through CI/CD optimization.

Professional Experience

Mid-level Software Engineer at TechNova Solutions
San Francisco, CA | Jun 2020 - Present
- Led a 5-member team to redesign a customer analytics dashboard using React and Django, increasing user engagement by 40%
- Reduced API response times by 35% by optimizing PostgreSQL queries and implementing Redis caching
- Automated deployment pipelines using AWS CodePipeline and Docker, cutting deployment failures by 50%
- Migrated legacy monolithic application to microservices architecture, improving scalability for 500k+ monthly users

Technologies: Python, React, AWS, Docker, PostgreSQL, Redis

Junior Software Developer at CodeCrafters
San Jose, CA | Aug 2018 - May 2020
- Developed 15+ reusable React components adopted across 5 client projects, reducing development time by 20%
- Built RESTful APIs with Node.js and Flask to integrate third-party payment systems
- Implemented automated testing suite using Jest and Selenium, increasing test coverage from 60% to 90%

Technologies: JavaScript, Node.js, Flask, MongoDB, Jest

Education

Bachelor of Science in Computer Science
University of California, Berkeley - Berkeley, CA | 2018
GPA: 3.6
Relevant Coursework: Data Structures & Algorithms, Cloud Computing, Database Systems, Web Development

Skills

- Python
- AWS (EC2, S3, Lambda)
- Docker
- JavaScript (ES6+)
- RESTful API Design
- Agile Development
- React & Redux
- CI/CD Pipelines

Certifications

- AWS Certified Developer - Associate (2022)
- React Professional Certification (Coursera, 2021)
